WHAT A FEMALE REGULATOR IS

A vegetable liquid for governing or equalizing the flow of women's menses which occur about once in every lunar month.

BRADFIELD'S Female Regulator

It is an essential quality of powerful herbs, Rectifying and harmonizing the system, and giving the system a healthy and normal action. It is a concentrated essence best adapted for women's delicate organism, and put in such form that it is not only palatable, but can be properly assimilated and taken into the system.

Stagnation, suppression, painful obstructions, irregularity of the menses and lack of flow are prevented and cured by the regular administration of this superior emmenagogue.

Menstruation, or periodic flow, necessitates a breaking down of cells lining the uterine membrane and a reconstruction after every discharge, which is accompanied with marked congestion and loss of blood. Such changes are very apt to produce chronic catarrh. Leucorrhoea or Whites is the result of the irritating discharges. Regular use of this trouble and restores to perfect health the patient who suffers the debilitating losses. Buy of druggists, \$1.00 per bottle.

DAILY THOUGHT.
"Time is worth infinitely more than money; it is mental growth, development, human progress towards all that is divine and eternal."

Louisville has had most everything, but it looks as if she can't have a Populist convention. The Pop threat to take it to Memphis.

Those who thought the city was a little previous with its "whitewash" are mistaken. The administration is not restricted to the spring or any other season in the use of its whitewash. It has a perennial use for the field.

There is some solace in the report that there is no chance for an extra session of the legislature. If the change remained at Frankfort much longer, the prosperous business inclined people of the state would be disposed to move out of the commonwealth until they got through.

If the board of education needs money, and has been getting along all this time without a superintendent of buildings, it might wait a little longer for one. It should know city's financial condition, and be content to wait until some more auspicious time to experiment with newly created officers.

The Owensboro Messenger makes a lame attempt to defend Senator Tillman, and after a few irrelevant remarks digresses into a disquisition on how many senators in past years have been bought. It is not known exactly how many were bought, but the general public is confident that McLean was not bought, because Tillman said so.

If it cost \$250 a mile to repair the county roads two or three years ago, and only \$15 to repair them now, why is there such a difference? Road Supervisor Johnson states that the repair of the roads last year cost only \$17 a mile, on an average. If it can be done now, and could be done last year, it should have been done the year before, at least at a reasonable figure.

Prince Henry will probably be as pleased with the United States and will see so much that he wants to come back and enjoy, we may expect him to return here, and take in the country in more quiet and satisfactory manner. To use a popular expression, "there" been something doing" to such an extent as to arrive that he has had little opportunity for real enjoyment.

The demagogues at Frankfort who attempted to railroad a school book bill through in the eleventh hour, have failed, it seems. The senate has blocked the bill. There are hills of more importance pending in the legislature and which have precedence over the book bill, and there is no reason why this bill should be advanced over them simply because the party lash was used by the senator in the governor's chair.

The New York Times truthfully says: "What can the Democratic party do or promise to do in the Philippines that is wiser, safer, better than the things the agents of a Republican administration have done or seek to do? Mr. Cockran and Mr. Shepard do not tell us. But they must tell us, they must disclose their Philippine policy and make known its details. When they talk of the constitution, of freedom, of democracy, of subject nations and peoples, and of imperial policies, they assail with arrows of innuendo a fortress built upon the rock of constitutional principle by the supreme court itself. All this part of their discourse the public dismisses as hollow and futile; the familiar phrases of partisan stump speaking. In vain it attempts to setting forth of their own plan, the Democracy's plan, of making the Philippines a self-governing people. They present no plan, they are unprepared to defend their substitute policy."

A RIDDLE THAT SHOULD GO.
A good amendment to the rules has been introduced by members of the board of education. It is to do away with the silly requirement that all applicants for the position of superintendent of the public schools undergo an examination. The average applicant for the position, and in fact

PUBLIC SPANKING

ADMINISTERED TO SIX BOYS CONVICTED OF BREAKING OPEN BOX CANS.

New York, March 6.—Two policemen with broad hands and plenty of strength back of them acted as masters of ceremony at a public spanking administered to six youthful delinquents in Kearney, N. J., police court.

The boys, whose ages ranged from ten to twelve years, were brought before Recorder Krebs on charge of opening freight cars and destroying property.

Recorder Krebs sentenced each to "a good, hard spanking," as the alternative of a \$5 fine. The parents spoke for the boys and chose the spanking.

Chief of Police Tolen selected two able-bodied policemen. Each took a boy and placed him across his knees in the approved position, and an instant later the court room rang with yells. When the round had been completed the youngsters were again arranged. They were very penitent, and after the court had admonished them against evil doing, they promised to be good in future and were discharged.

REVENUE REDUCTION BILL

WILL BE FAVORABLY REPORTED AFTER ONE OR TWO MORE SITTINGS OF SENATE COMMITTEE.

Washington, March 6.—The House bill for the repeal of the war revenue bill and providing for the removal of the duty on tea, has received its first consideration at the hands of the senate committee on finance, and members expressed the opinion that the measure would be favorably reported after one or two more sittings. No opposition was expressed to the measure as a whole, but the time of the meeting was given over to a discussion of the bill and its probable effect upon the country's finances.

Senator Aldrich, as chairman of the committee, presented a statement showing the receipts for the fiscal year 1901 exceeded the expenditures to the extent of \$108,000,000. The average internal revenue receipts under the war revenue act are \$68,000,000, and those collected on the importations of tea \$9,000,000, leaving still a probable surplus of more than \$30,000,000 per year, after the abolition of the proposed taxes.

STRIKE LEADERS EXECUTED

Madrid, March 6.—A number of strikers, arrested for participating in the recent riots at Barcelona, were shot at Fort Montjuich.

A brother of Gen. Moore, the Carlisle leader, has been arrested for complicity in the Barcelona riots, and will be tried by court martial.

Papers seized at the house of anarchists in Barcelona indicate that a widespread plot existed.

Strikes have been declared at Cadiz and Ferrol, Spain.

W. O. T. U. PRAYERS

FOR BISHOP POTTER.

New York, March 6.—Bishop Henry C. Potter will be the subject of special prayers tomorrow by the Women's Christian Temperance Union of New York, N. J. The occasion will be the monthly all day prayer meeting, and the reason for his being singled out as the object for prayer is the recent expression of his views on the Sunday school closing question. In a speech at Mount Sinai, N. J.

TURNED OVER TO FED.

ERIAL AUTHORITIES.

Yonkers, Ark., March 6.—Tom Keister, one of the Clarksville bank robber suspects, was turned over to the federal authorities and transferred to the jail at Fort Smith on the charge of violation of the revenue laws. Keister showed signs of gaiety over the change of the charge, and declared he knew nothing of the Clarksville bank robbery.

Capt. Enoch P. King, another of the Robert E. Lee's pilots in the historic race with the Natchez, is dead in St. Louis. If all the river men who are credited with having piloted the Lee in that race were really there, every spoke of the wheel must have had its special pilot.

Pittsburg lost \$1,000,000 by the flood she had.

RICKETY CHILDREN.

As likely to think of chairs as of children when we use that word rickety.

Children with loose joints, bow-legs, and soft bones have rickets. It is a disease due to improper feeding—and a typical disease for the workings of Scott's Emulsion.

For the weak growth of the bones Scott's Emulsion supplies those powerful tonics, the hypophosphites.

For the loss of flesh Scott's Emulsion provides the nourishing cod-liver oil in an easily digestible form.

It is these things that account for the rapidity with which Scott's Emulsion cures rickets.

Rickety children improve in every way under its influence.

ABOUT CATARRH CURES.

THE REASON WHY INHALERS AND LOCAL APPLICATIONS ARE USELESS.

For many years catarrh was considered to be a local disease, and was treated entirely by local remedies, salves, ointments, powders, sprays and inhalers, and nearly all of those gave a temporary relief, but a genuine, permanent cure was very rare.

It is true the most annoying symptoms, like stoppage of the nose, and throat troubles, are purely local, but they are simply symptoms, and the real seat of disease is far removed.

Catarrh is a constitutional disease, a blood disorder, complicated usually with disease of the liver and to suppose that local applications of sprays, powders, inhalers, could ever reach the real cause of the trouble is ridiculous.

The sensible and successful treatment is to remove the catarrhal poison from the system by regulating the liver and purifying the blood, and this can only be done by an internal remedy, which should consist of antiseptics and remedies to act vigorously on the blood and liver.

The best preparation of this kind which fills all the requirements of a safe constitutional treatment is Stuart's Catarrh Tablets, composed of blood-purifying and similar wholesome antiseptics, which are absolutely safe to take into the stomach, and which act upon the liver, stomach and mucous membrane.

Stuart's Catarrh Tablets are large, pleasant tasting lozenges, to be slowly dissolved in the mouth, thus reaching the mucous membrane and wind pipe and finally reaching the stomach.

Dr. Edmundson, in speaking of the new treatment for catarrh, says: "I have accomplished the most satisfactory results in all forms of catarrh of the head, throat, bronchial tubes, as well as catarrh of the stomach and liver by using nothing else but Stuart's Catarrh Tablets. I long since threw aside sprays and inhalers as being inconvenient and at the best mere temporary makeshifts."

Stuart's Catarrh Tablets act immediately upon the liver and blood, and clear the whole system of catarrhal poison. They are pleasant and very convenient to use, and they are not only the latest, but I believe them to be the best and certainly the safest treatment for any form of catarrh."

All druggists sell Stuart's Catarrh Tablets at 50 cents for full sized package.

DUMMY OF RAGS

EXHUMED WHEN A LIFE INSURANCE COMPANY WAS CALLED UPON TO PAY POLICY.

Mexico City, March 6.—The Equitable Life Insurance company of New York was saved from being the victim of a fraudulent collection of life insurance policy. Some time ago one Jose Matilde, a Spaniard, took out a policy for \$20,000 in favor of his brother, Manuel Matilde. A short time ago the latter presented proof of Jose's death and attempted to collect the policy. The officials of the company here had been secretly informed that this was an attempt to swindle them. They, therefore, refused payment of the policy pending investigation. Manuel Matilde attempted to secure an attachment upon the property of the Equitable company in Mexico, but without success. The episode came this morning, when the supposed corpse of Jose Matilde was exhumed in the presence of Second Criminal Judge Mayora. It was found that the corpse contained a dummy of rags, sawdust and paper, made. Manuel Matilde did all he could to prevent the exhumation, but finding it was going to be made, he absconded. The doctor who gave the death certificate has been arrested.

MONSTER DEMONSTRATION.

St. Petersburg, March 6.—The students and workmen here are secretly preparing for a monster demonstration to take place March 7 in front of the Kazan cathedral. They hope to get 30,000 men through the military corridors and reach the center of the city.

ANARCHISTIC LITERATURE.

Washington, March 6.—At the cabinet meeting a number of matters of minor importance were discussed. The receipt of anarchistic documents, mostly newspapers and pamphlets, by the treasury department was talked of, and it was decided to bring the matter to the attention of the international postal union when it meets.

—On Tuesday, March 11, we are to have at The Kentucky that favorite and breezy musical comedy, "The Telephone Girl." All the prominent cities of the country have been played during the past three seasons, beginning with New York, where it enjoyed a most phenomenal run of over two hundred and fifty nights, accorded it a most enthusiastic reception, and it seems not to have surrendered one jot of its popularity. "The Telephone Girl" is in two acts. Tuneful melodies pervade them, and no more taking music was ever written or evolved. This company is headed by the big quartette of fun makers, singers and dancers, Frank Blar, Mabel Hite and Douglas and Pearl.

THE GIFT OF LIFE

Mr. Biederman Preached on His Rejection Last Night.

The Big Meeting Drawing to a Close—Much Interest and Good Notes.

A large and deeply interested congregation was present at the Union Gospel meeting last night. The song and prayer service was especially delightful. Prof. Maxwell is a genius in the art of holding the interest by happy variation of the exercises, there is no sameness in his methods to pall upon one. Last night a new feature of interest was allowing the audience to call for their favorite songs, and it was very popular. Just before the sermon Mr. Maxwell sang "Drown of the Judgment Day" with a power and earnestness that had its undoubted effect.

Mr. Biederman's text contained John 10:10 and John 5:40, "I am come that they might have life, and that they might have it more abundantly." "And ye will not come to me, that ye might have life," making a very strong foundation for his powerful sermon. He emphasized with startling directness and force the rapidity with which we are dying. Dying at the rate of 91,000 a day, or 4,000 a minute, and how we instinctively turn from the thought. The early American explorers were seekers after the fountain of eternal youth, and we still cry "life, life." Jesus says "I am come that ye might have life, and have it more abundantly." He alone can give it. Men are longing for the wrong kind of life. The life they seek only comes through Jesus.

Death is but a physical gateway through which we enter on a fuller life. How may we get this life? Jesus says, "I am the Way, the Truth, the Life." Why is there life in Jesus Christ? Because He is the only person who overcame Death, and who overcame sin. He died that He might rise again into a greater life. It was a wonderful plan of God to save the world in no other way. This old world is swinging around to faith in Jesus Christ. The old desire for living is being implanted with a nobler purpose—to live to help others, to live this noble life until the Tree of Life bursts into bloom. It will rob death of its sting. You never saw a Christian terrorized by the thought of dying. Without the life that Jesus can give man is without hope. Men in all ages have longed for a life beyond the grave. The heathen nations thought much of the immortality of the soul. Men are not afraid to die because of any future existence, but because of their share of it. You cannot be a Diva in this world and a Lazarus in the next; indifferent here, and a sharer of glory there. It is not that men do not know this way, but that they will not walk in the way. There are many lines dividing this audience tonight. Some are poor, some are rich, some ignorant, some cultured, but these will one day be washed away; one great line will always remain though, the line dividing those on God's side and those who are not. You either decide tonight for or against Him.

Some very strong illustrations were given here on the experience of those who turn aside when urged to come to God. Mr. Biederman's earnest simplicity and directness got straight home to the hearts of his hearers, there is nothing visionary, or illusive about the serious he preaches. It is plain, everyday gospel for working people who are tempted and tried, and therein lies his power, and his ever-growing hold on the people. There was much interest in the last night. This afternoon Mr. Biederman is speaking on "Abraham" and the great test God required of him, and is making some strong points on the necessity, beauty, and rich blessings of sacrifice. The afternoon services are well attended.

Service tonight and it will be of special interest. Tomorrow there will be the usual two services.

At the Sunday afternoon mass meeting for men only at the Broadway Methodist church, Mr. Biederman will preach on "The Unpardonable Sin," and Mr. Maxwell will sing "Will I Meet My Saviour Mother?"

The farewell service on Sunday evening will be a great service, and no one will want to miss it.

ACTIVE IN ATHLETICS

Mr. Overton Brooks Will Take Charge of the Y. M. C. A. Classes.

Tab of Organizing a Boat Crew—Y. M. C. A. Reception Being Arranged for.

After the big union services have been closed, the Y. M. C. A. gymnasium classes will again be organized and the regular drill work taken up.

Mr. Roy Potter, the former physical director, will probably not be in the city, and the work will be carried on by Mr. Overton Brooks, late of Annapolis, Md., where he has been in the naval academy.

Mr. Brooks is an experienced man in athletics, having taken the full course at that academy. The several new games recently received, under base ball and football, will be played until summer, and then the outdoor sports taken up. There is a movement on foot to organize a cutter crew here.

Several young men interested in boat racing have started the movement, and will attempt to secure a large enough subscription among themselves to purchase a regular ten seat cutter and work on the river this summer. This is a sport that has not been seen here for many years, and if every thing turns out as expected, the boat will be purchased, and the Paducah public treated to a sight seldom seen in these parts. Regular cutter races, which are run by the college students in the East, have never been seen here, and will prove a novelty.

Secretary Beott is planning to arrange for a big reception for the association members and their invited friends. The former receptions have been successful, but not as much so as the management would like, and plenty of time will be given the members so that no duties will be arranged to interfere with their attending the reception. This month already the membership has increased about 15 and to swell the enrollment of members is the object of the reception. Speeches and a full explanation of the benefits and advantages of the association will be made, and it is thought this will be one and the best method of securing new members.

The ladies' committee held a meeting yesterday afternoon at the association to arrange for a big concert that will be given soon for the benefit of the association. The ladies are the most diligent workers in the cause, and the success of the association is due largely to them. The date of the concert will be announced later.
